Our clients always come first

We provide comprehensive advice, with an innovative approach and commercial focus targeted at adding value.

We stand out for our responsive and collaborative work, partner-involvement and a team of dynamic and committed associates.

Our Practice

We are market leaders in the energy & infrastructure sectors, providing legal advice on a wide range of challenging and high-impact matters across the entire value chain, including:

- Project development to support to achieve ready-to-bid or ready-to-build status, including: land agreements and compliance with regulations (environmental matters), easements and other land rights, permitting, resource assessment and audit.
- Public and private tender processes (RfQ and/or RfP).
- Legal due diligence of energy and infrastructure projects, assets and companies on behalf of sponsors, lenders, investors, off-takers, buyers, and sellers.
- Regulatory and bankability advice in financial transactions such as: project finance, corporate finance, acquisition finance, bond issuance, and in other transactional and innovative matters.
- Regulatory advice in M&A transactions involving energy-related assets or companies.

Our Practice

- Drafting and negotiation of project agreements, including EPC, EPCM, BoP, BoS, TSA, O&M, equipment supply agreements (batteries, panels, inverters, trackers, transformers, wind turbines, gas and steam turbines, among others), Asset Management Agreements (AMA) and Shared Facilities Agreement contracts.
- Power purchase agreements (PPA) for projects powered by renewable, thermal, or hybrid sources (e.g., thermal + solar PV, storage + solar PV).
- Gas supply agreements (GSA); gas transportation and distribution agreements; natural gas capacity and resale agreements; Terminal Use Agreements (TUAs) in connection with LNG liquefaction and regasification projects; natural gas open seasons; natural gas export contracts and permits, joint operating agreements, farm-in and farm-out agreements, and other oil & gas industry agreements.
- Regulatory advice in connection with the granting and assignment of hydrocarbon concessions, including the negotiation of agreements for the granting of such concessions.

JAVIER CONSTANZÓ

Partner
javier.constanzo@tavarone.com

Our Practice

- Regulatory advice in connection with the development and installation of LNG regasification and liquefaction terminals and related infrastructure.
- Transmission matters, including critical backbone projects, end-of-line extensions, regulatory matters and dedicated works to support energy-intensive industries.
- BESS matters, including negotiation of BESS PPAs with offtakers.
- Offtake and/or feedstock agreements (including steam, biomass, natural gas, and liquid fuels).
- Regulatory disputes between energy industry participants, as well as proceedings before regulators.
- Regulatory support in international arbitration related to energy or infrastructure disputes.
- Advice related to data centers projects.
- Advice for green hydrogen project development.
